## SIMPSON CUSTOMERS WRITE

"I was involved in a horrible racing accident last weekend while wearing a Simpson helmet and a HANS device. Thank you for developing such high quality products. I flipped multiple times and had a tractor tire come through the cockpit smacking me in the helmet. Then i went over the catch fence and hit a light pole. I know for a fact that your products saved my life. Again thank you."

"I am fine. Not a scratch or bruise. I credit the form-fitted seat and the finest Stilo carbon fiber helmet for my safety"

"I just want to say thank you for your helmet that saved my boys life today - go kart racing, ejected and landed on his head - surgery for a broken orbit (eye bone) and so far we are in the clear - thank you thank you."

"One piece of specialty racecar driving equipment is getting a lot of credit for saving Ryan Newman's life: the HANS device. Newman was in a horrific crash at the Daytona 500 last weekend and many fans feared the worst. Thanks in part to the HANS device, however, Newman is already back on his feet."

As reported by Crain's Detroit Business

PRICES SUBJECT TO CHANGE WITHOUT NOTICE

Since 1959, Simpson Performance Products has been the leading manufacturer of safety equipment for the Motorsports industry. Simpson continues to lead the way as the first American company to manufacture an FIA 8860 helmet. As a long time contingency sponsor for NASCAR and NHRA, we support our racers through industry partnerships and many organizations like USAC, LOLMDS, SVRA and PCA and provide unmatched customer support trackside at many premier racing events across the country.

Simpson believes in putting safety first for racers, motorcycle riders and off road enthusiasts. We are dedicated to elevating the standards of racing safety through continuous development, refinement and testing. We believe in the peace of mind that comes with proper racing safety gear. Shop here for all the latest in safety that Simpson and our sister companies HANS Performance Products and Stilo Helmets have to offer.

## CERTIFICATIONS/HELMETS

**FIA:** The Fédération Internationale de l'Automobile (FIA), Headquartered in Paris, France, is a nonprofit organization that brings together 227 national motoring and sporting organizations from 132 countries on five continents. FIA Formula One World Championship, FIA World Rally Championship and FIA World Touring Car Championship are among the sanctioning bodies who abide by FIA standards. More information can be found at [fia.com](http://fia.com).

**SFI:** The SFI Foundation, Inc. (SFI) is a nonprofit organization established to issue and administrate safety standards for specialty and performance of automotive and racing equipment. SFI oversees testing and standards for racing suits, restraints and many other high-performance safety products in the United States. NASCAR, SCCA, IRL and NHRA are among the sanctioning bodies who abide by SFI standards. More information can be found at [sffoundation.com](http://sffoundation.com).

**Snell:** Snell Memorial Foundation is known for its ongoing work in setting, maintaining and continually upgrading helmet standards in Motorsports in the world. NASCAR, NHRA, SCCA and IRL are among the sanctioning bodies who abide by Snell helmet standards. More information can be found at [smf.org](http://smf.org).

**DOT:** United States Department of Transportation – meets US DOT requirements for motorcycle helmets.

**ECE 22.05:** Economic Community of Europe (ECE) is the most common helmet standard used internationally. The ECE 22.05 is required by over 50 countries worldwide.

## SNELL SA2020 HELMETS FOR ADDED PROTECTION

Snell SA2015 vs 2020 ...what's changed? The Snell SA2020 testing requirements have changed a small amount and have now become more in line with the FIA 8859 Helmet Standard.

Details:

Increased velocity by 5-10% for impact testing on the 2nd hit across all shell sizes.

Increased velocity from 5.7 to 6.0 m/s on the 54cm to 59cm size.

Increased peak G threshold on the 54cm to 59cm size and 60cm-64cm size.

Head Form	Impact Velocity Table						
	A	C	E	J	M	G	
SA2020 Peak G	300	300	300	300	280	260	
SA2020 Certification	1*	8.90 m/s	8.90 m/s	8.90 m/s	8.90 m/s	8.90 m/s	8.90 m/s
	2*	8.82 m/s	8.82 m/s	8.82 m/s	8.45 m/s	8.00 m/s	8.00 m/s
	3*	8.00 m/s	8.00 m/s	8.00 m/s	8.00 m/s	8.00 m/s	8.00 m/s
SA2015 Peak G	300	300	300	300	284	240	
SA2015 Certification	1*	8.90 m/s	8.90 m/s	8.90 m/s	8.90 m/s	8.90 m/s	7.75 m/s
	2*	8.84 m/s	8.84 m/s	8.84 m/s	8.31 m/s	7.70 m/s	5.02 m/s
	3*	6.00 m/s	6.00 m/s	6.00 m/s	6.00 m/s	5.70 m/s	5.02 m/s

The table shows the SA2020 and SA2015 demands for standard impact testing. The blue cells indicate the changes.

Additionally Stilo has made an improvement on the SA2020 Carbon Helmets: SA2020 ST5.1 Carbon FIA8859 helmets will be 50/60g lighter thanks to our new Puro Super Smooth technology unique to Stilo. This superior finish removes the need for lacquer, and also saves weight. A benefit to painters is the decal is no longer under the clear coat. This model now comes with a decal like our Zero's and 8860's.

MEASURING FOR A HELMET

MEASURE DIRECTLY ABOVE THE BROW LINE FOR THE BEST HELMET FIT.  
Simpson Recommends Inspection Of Your Helmet After Any Impact Collision.

A correctly fitted helmet should feel like an even amount of pressure is being exerted around your head and cheeks. But helmets break in, so it should fit as tight as you can comfortably wear it. Once fastened, you should NOT be able to pull it off your head in any direction. Attention first-time helmet buyers: If your helmet is loose at all, and doesn't fit well, it CANNOT deliver the best protection. A helmet's strict safety standards can be compromised after only one impact collision. If the integrity is in question, send it back to us for proper inspection.

ADULT HELMET SIZE CHART

MULTI-EQUIPMENT DRYER FOR HELMET, GLOVES AND FOOTWEAR

Simpson's Disinfecting Helmet and Equipment Dryer has a quick 20-minute Ozone feature. The built-in Sanitizing Ozone feature cleans and disinfects for a healthier environment. Safe heat temperatures are designed specifically for the interiors of rated helmets. Not only does this dryer accommodate helmets but the unique design also dries shoes and gloves. This sleek unit works great for family sports or hunting gear.

CODE: **97100BK** PRICE: **\$139.95**

- FEATURES**
- Disinfects, Sanitizes, Anti-bacterial, eliminates odors and controls bacteria growth
  - Temperature and timer settings
  - Simple design easily accommodates multiple styles and sizes
  - Dual dryer ports
  - 110 volt

It's hard to put that wet, smelly helmet on your head. What's happening to your expensive equipment? The truth is cheek pads and liners degrade over time from perspiration and bacteria. Keep your equipment in peak condition longer by stopping mold and mildew before it starts. You can focus on your driving or riding and quickly refresh between events.

**A NOTE ON OZONE:**  
Ozone is used widely for sterilizing; our dryer generates ozone by the corona discharge method.

Ozone is a pale blue gas with a distinctively pungent smell, detectable by many people at concentrations of as little as 0.01 ppm in air. Ozone is formed naturally from diatomic oxygen by electric discharge or exposure to ultraviolet radiation.

Ozone is a powerful oxidant and has many industrial and consumer applications related to oxidation; it is used to deodorize air, purify water, disinfect kitchen tools and treat industrial wastes.

Although ozone is widely used in industry and commerce the ozone layer, a portion of the stratosphere, is beneficial: it prevents damaging ultraviolet light from reaching the Earth's surface. This same oxidizing property, however, causes ozone to damage mucous and respiratory tissues, so for safety and comfort purposes, we always recommend using the dryer and sterilizer in a space with adequate ventilation, and stay away from it while it is disinfecting objects with ozone.

RADIO COMMUNICATION

Simpson offers Rugged Radio's exclusive technology for Racing Radio Driver and Crew Communication systems. Order your helmet complete with factory-installed communications equipment. Save time and shipping charges. Helmet kit pricing as shown includes installation. Simpson helmets are fully certified to be Snell and/or FIA compliant when equipped with Rugged Radios installations. PCI Radios also available for off-road applications. Call us at 800-654-7223.

OFF-ROAD HELMET KIT

Kit Includes Flex Boom, Helmet Speakers and 3.5 mm Ear Bud Jack

This complete off-road flex boom helmet kit features Rugged Radios' new Dura-Link Sealed Connector, Clear Hear speakers and dynamic noise canceling mic for best audio performance, and 3.5mm input port for music cable or ear buds. The Dura-Link Seal, featured on all Rugged helmet kits, seals the connection between the intercom cable and helmet kit plug. The Dura-Link Seal protects the connection contacts from water, mud and dirt which can affect audio performance and works with current Rugged off-road intercom cables.

HELMET EJECT AND EMS

Simpson's Eject Helmet Removal System is a small air bladder that fits easily into any helmet, without changing its fit or feel. In the event of a crash, First Responders can help reduce the risk of secondary neck or spine injuries by inflating the Eject System which gently lifts the helmet off the head.

EJECT EMT AMBULANCE/TRACK KIT

Complete Eject Kit for track or ambulance contains:  
 3 EMT Helmet Bladders  
 1 Bulb Inflator  
 1 CO2 Inflator  
 4 CO2 Cartridges (16 grams each)  
 1 Track Bag

CODE	PRICE

F/C AIR SYSTEM

DRAG SOCK

## THE F/C AIR SYSTEMS

Can be installed on most Simpson fullface helmets. Advanced internal airflow system distributes fresh air throughout, with venting to the mouth/nose, and 2 clearing ports on each side to eliminate fogging. Drag sock and Kevlar® gasket purchased separately. Requires use of drag sock.

### Drag Air System

CODE: **97025** PRICE: **\$134.00**

### Drag Sock

SFI 3.3/10 CarbonX®, built in drag sock

CODE: **97003** PRICE: **\$169.00**

## THE F/C EXTERNAL AIR SYSTEM

The F/C Air System was designed in 1998 to provide constant flow or on-demand air to the driver in the event of a fire. Composite bottle will hold 5 to 10 minutes of air, depending on flow setting. System includes Flow Control Regulator, ball valve, 8 ft. fire rated hose, hose fittings and 3000 PSI rated bottle (114 cubic inches) and shut-off valve assembly.

### Air System

CODE: **FCC** PRICE: **\$799.00**

## BREATH DEFLECTOR

Helps seal mouth and nose area and keeps fresh air in and unwanted fumes out. Can be molded to conform to contours of nose. Prevents fogging and can be used in conjunction with Sidewinder F.A.S. Must have helmet to install at factory.

Adjustable Breath Deflector (Shown)  
Breath Deflector

CODE: **97035** PRICE: **\$104.00**  
CODE: **97022** PRICE: **\$104.00**

## CHIN FLAP (NOT SHOWN)

Helps seal area under chin to prevent air flow that can cause lift. Prevents dust and debris from entering helmet. Reduces noise while improving microphone pickup. Must have helmet to install at factory.

### Chin Flap

CODE: **97015** PRICE: **\$73.00**

# STILO HELMETS

**STILO RACING HELMETS**

Stilo helmets are some of the lightest in the world. They're worn by winning drivers worldwide including F1 Mercedes driver Valtteri Bottas, Monster Energy NASCAR Cup Series champion Kyle Busch, IndyCar Series champion Tony Kanaan and WRC champion Sébastien Loeb. Stilo was the first helmet manufacturer to achieve the FIA's prestigious 8860-2018 standard. Demand the best, be the best. Visit our website at [StiloHelmets.com](http://StiloHelmets.com) or call 833-44-STILO (78456).

*Any competition one helmet*

Snell SA2015 vs 2020 ...what's changed? The Snell SA2020 testing requirements have changed a small amount and have now become more in line with the FIA 8859 Helmet Standard.

Details:

Increased velocity by 5-10% for impact testing on the 2nd hit across all shell sizes.

Increased velocity from 5.7 to 6.0 m/s on the 54cm to 59cm size.

Increased peak G threshold on the 54cm to 59cm size and 60cm-64cm size.

Additionally Stilo has made an improvement on the SA2020 Carbon Helmets: SA2020 ST5 Carbon FIA8859 helmets will be 50/60g lighter thanks to our new Puro Super Smooth technology unique to Stilo. This superior finish removes the need for lacquer, and also saves weight. A benefit to painters is the decal is no longer under the clear coat. This model now comes with a decal like our Zero's and 8860's.

## STILO 8860, ZERO AND ABP HELMETS

ST5 FN Carbon 8860-2018

8860-2018 is the latest 'super helmet' specification from the FIA. The Advanced Ballistic Protection (ABP) features reinforced areas above the visor opening, which is 10mm lower than non-ABP models. Stilo was the first manufacturer to reach this stringent standard and has all sizes available.

The 8860-2018 ABP standard includes the following improvements.

- Advanced Ballistic Protection (ABP) above the eyeport
- Increased energy absorption
- Low lateral impact
- Available in FN and GT models

The ST5 Carbon 8860 and Zero 8860 helmets are aimed at professional racers needing to satisfy the strict FIA 8860 regulation, or any race driver serious about helmet safety. This certification provides an unparalleled level of puncture protection as well as impact resistance. Nowhere will you find a safer helmet.

**ST5 FN  
8860 ABP**

**ST5 FN  
ZERO 8860 ABP**

The Zero helmets are the lightest 8860 helmets available anywhere in the world, with a new shell made from a specific quality of high-tensile carbon. These helmets are homologated to FIA 8860-2018 (and Snell SA 2020) certification.

## STILO KART HELMET

Turn heads with a style that closely resembles the top range Stilo ST5 Zero helmet. Visit [stilohelmets.com](http://stilohelmets.com) for more details and to view the custom kart options for a unique look on the track. A safer helmet means faster laps.

## KART CARBON CURVA

In a new development for Stilo, we can now offer you our patented technology Kart Carbon Curva Rib Protector. Unlike other protectors in the market, this protector incorporates a patented fusion of protective carbon and flexible carbon to form a more comfortable form-fitting solution, offering superior protection. A great fit results in less movement within the protector and increased comfort and protection, all in a very carbon light construction. The Curva adapts to the driver's body, protecting him/her from impact without limiting movement or restricting breathing. Available in small, medium and large, the Curva is equipped with adjustable braces for a perfect fit to all heights and body types from kids to adults. The Stilo Carbon Curva safety device is 100% made in Italy.

## HEAD RESTRAINTS

### WHAT YOU NEED TO KNOW

#### Why do I need a frontal head restraint system?

Quite simply, head restraints save racers' lives!

If you are unfortunate enough to be involved in an accident during a race, your seatbelt is likely going to do its job and stop your body from moving forward. The head restraint will do its job and stop your head from whipping forward and placing enormous strain on your neck. A racer's head is made heavier than normal by the added weight of a helmet. Frontal impact in a race car can cause basilar skull fractures which are often fatal and have taken the lives of some of history's greatest racers. Keep in mind that it isn't necessarily how fast you are going but how fast you stop that causes some of the worst injuries.

#### What is the difference between the different head restraint devices?

Simpson offers a complete line of HANS Devices and Simpson Hybrids. The HANS is a yoke style head restraint and has a loyal following worldwide. The Hybrid is a backpack style device designed to stay with the racer upon entering or exiting the racecar. The Hybrid line features the Hybrid S, the only head restraint in the world that is tested and proven to work with 3-point OEM seatbelts, a plus for HPDE and Track Day participants. The HANS and Hybrids are popular with top level NASCAR, NHRA and WRC drivers. The difference in head restraint models comes down to weight – all HANS and Hybrid head restraints offer the same exceptional level of protection. We offer composite and carbon fiber models to service every price level. Simpson has historically worked to lower the price on head restraints to make this crucial piece of safety equipment affordable to all racers.

#### Do I need to use a specific seatbelt harness?

No, but the configuration of the seatbelt harness is critical and some head restraints are tailored for use with a FHR-specific seatbelt harness.

The shoulder strap mounting points should be even with the shoulders such that the straps make an angle of 10° to the horizontal.

The mounting points must be equally disposed about the user's centreline so that straps spread inward slightly from the mountings and around the FHRs.

This helps to keep the straps firmly engaged with the FHRs.

#### How do I care for my head restraint?

HANS and Hybrid head restraints are low maintenance but should be kept clean and dry. Extreme hot or cold environments should be avoided, and they should be kept away from petroleum products and other corrosives which can affect even the strongest composite materials and resins. Store out of direct sunlight and clean when needed with soapy warm water.

CALL US AT 1-800-654-7223 FOR HANS AND HYBRID ASSISTANCE.

## HYBRID PRO LITE

The Hybrid Pro Lite® is the ultimate in safety and comfort. The Hybrid Pro Lite's new lightweight design and carbon fiber construction provides maximum comfort and maneuverability with superior strength. All of Simpson's Hybrid Series head restraints are designed for easily exiting the car without the danger of being entangled in other gear by offering the lowest profile of any comparable device. This device comes with optional patented SAS (Seatbelt Anchor System) for even greater coverage in flips, barrel rolls and side impacts. When the worst happens, you'll have the same great protection every time.

## Hybrid S HOT PRODUCT

Simpson's Hybrid S model is currently the only Frontal Head Restraint proven effective for 3-point harnesses, and the device is also FIA and SFI approved. Additionally, in a partnership with Detroit auto manufacturers, the Hybrid S is third party tested to FMVSS208.

The Hybrid S allows high-performance driving Instructors, auto manufacturing test engineers, and other drivers with 3-point harnesses access to the advantages of head restraint safety.

The FIA Hybrid Head Restraint, in conjunction with a Snell or FIA rated helmet and a 3-point harness, reduced neck tension significantly when compared to a test with only a helmet and 3-point harness.

While we can offer head restraint protection for use with 3-point seatbelts, Simpson's top concern is driver and instructor safety. We suggest a Full Containment Cockpit System that includes a Full Containment Seat, Snell or FIA rated Helmet, FIA or SFI approved Frontal Head Restraint, and a 5 to 7-point seatbelt harness system for the best protection while on the track.

### FEATURES

- FIA approved, SFI certified
- High-quality carbon fiber construction
- Low profile. No high back to hook on the bars on exit.
- Multiple load paths to dissipate head loads
- Buckle attachment in front. No bulky straps underneath.
- Seat belt anchor system
- Helmet anchors available for upgrade

HYS.M61	M61 UPGRADE OPTION, ALL SIZES, WITH HELMET ANCHORS	\$1,160.00

**PROTECTION STATEMENT** Simpson's top concern is your safety. For your BEST protection on the racetrack, we suggest a full containment cockpit system that includes a full containment seat, Snell or FIA rated helmet, SFI or FIA approved head restraint and a 5, 6 or 7-point harness system.

For best safety practices, it is our recommendation that no one should unhook/disable the airbag system installed by the auto manufacturer or their authorized installer. Our outside experts in Detroit confirmed and require their test engineers to use the Hybrid S in conjunction with the airbag in a 3-point system. All of our experts believe the airbag and Hybrid S work in conjunction to increase protection in frontal crash events.

## HYBRID SIZING CHART

### CHEST STRAP WITH DRIVING SUIT ON

#### HOW TO MEASURE

1. Measure around chest below pectoral muscles.
2. Measure with driving suit. If not available add 1" to measurement.
3. Take measurement with tape placed against driver without any slack and without pulling the tape tight.
4. Once measurement has been determined, refer to size charts to device size selection.

Call customer service at **800-654-7223** if unsure.

#### HYBRID SIZE CHART

\* MEASURE CHEST WITH DRIVING SUIT ON

CALL FOR CUSTOM SIZING OR WOMAN'S FIT OPTIONS

## HANS DEVICE SIZING CHART

Neck size is the starting point for fitting a HANS Device.

You may fit several sizes – comfort is the deciding factor. See HANS selection, beginning page 37.

#### HANS SIZE CHART

INCHES	11	12	13	14	15	16	17	18	19	20
SUPER SMALL	11	12								
YOUTH			13	14						
SMALL				14	15					
MEDIUM					15	16				
LARGE							17	18	19	20

## HANS ZERO

The Stilo HANS Zero combines the best of the Simpson Group, a fresh Italian design engineered for extreme lightness along with HANS proven technology to create the lightest, most comfortable HANS device ever. Using proprietary techniques and aerospace grade carbon fiber, the Stilo HANS Zero is 15% lighter than the HANS Ultra Lite, the current lightest HANS on the market. The Zero's legs are carefully crafted to fit your chest and the result is pure comfort! You will know you're wearing the best head and neck protection available.

Stilo HANS Zero is the ultimate achievement from the company that invented head and neck restraints, a collaboration of excellence combining Stilo's best of Italian style and HANS lifesaving technology.

## HANS PRO ULTRA LITE

The HANS Pro Ultra Lite is SFI 38.1 and FIA approved. The Pro Ultra device applies aerospace grade carbon to achieve a 100+ gram weight saving compared to the regular Ultra. The Ultra Lite saves on weight and allows for easy entry and exit from the race car, even smaller, tighter vehicles. The 100% carbon fiber construction features a hollow core for increased weight reduction without sacrificing strength. The sliding tethers offer exceptional visibility. Call for FIA pricing. Upgrade to the Pro Ultra Lite today.

STYLE  
PERFORMANCE  
COMFORT

**PRO SPORT**

The PRO SPORT was developed and engineered for a superior fit, function, comfort and style all while keeping it's mounting position as low as possible in the vehicle. The Pro Sport has a 2" wider base than our standard Vortex and extra broad shoulders making it the ultimate UTV seat.

Standard Price \$599.95  
Custom Price \$649.95

\* The Pro Sport modular design fits several vehicles. Mounts are not included and must be purchased separately, See page 60.

[SIMPSONRACEPRODUCTS.COM](http://SIMPSONRACEPRODUCTS.COM)

VORTEX II

POLARIS RZR

All Vortex rear benches are completely bolt-in and come with all the required hardware needed for installation. It can be ordered in colors that compliment the factory front seat for those who do not want to replace the OEM front seats. Optional seat heaters and adjustable lumbar supports are available.

Fits: XP 4 1000, XP 4 Turbo, 2015 + XP 4 900, 2010 - 2014 RZR 4 800/900

Standard Price \$899.95  
 Custom Price \$949.95

The new Vortex II seat cushion is 1 1/2 inches wider and 2 inches shorter front to back compared to the original Vortex. This creates more leg room, more steering wheel clearance and makes getting in and out of the vehicle much easier. The Vortex II features our new ABS shoulder strap pass-throughs and our new PVC Sub-Belt loop enhancing performance while producing a super clean look.

Standard Price \$499.95  
 Custom Price \$549.95

\* Vortex modular design fits several vehicles. Mounts are not included and must be purchased separately. See page 60.

Harnesses

D3

The Simpson D3 buckle does what no other buckle system can. It provides the ease and convenience of a sewn in harness without the shoulder straps being sewn to the lap belt. Its unique patented design eliminates the two shoulder strap links while still allowing the shoulder straps to be joined at the center of the buckle, truly emulating the "V" shape of a 5 point latch and link.

## ORDER INFORMATION

### ORDER TOLL-FREE

1-800-654-7223 + Fax: 1-830-625-3269

Our sales team is ready to take your order or provide any assistance you may require by toll-free phone, mail or fax.

### CUSTOM SUITS & CREW UNIFORMS

1-888-872-SUIT (7848) + FAX: 1-310-320-7179

If you need assistance or help in ordering custom suits and/or crew uniforms, call our Tech Information and Help Line first. They will explain the different styles of suits, options, sizing, embroidery and anything else you might need to know.

### TECHNICAL SUPPORT & HELP LINE

1-800-654-RACE (7223) or 1-888-872-SUIT (7848)

(Custom Suits & Crew Uniforms) If you have a question about a product or would like to check on an order, please call our toll-free Technical Support line between 8 AM – 5 PM, Monday through Friday, Central Time. Or, use the toll-free 1-888-872-SUIT (7848) between 8 AM – 5 PM, Monday through Friday, Pacific Time for assistance regarding Custom Suits and Crew Uniforms.

### RETURNS

Simpson warrants all products to be free from all defects in material and workmanship when used according to the manufacturer's instructions. Warranty does not include damage to the product as a result of misuse, abuse of the product, or normal wear and tear. Simpson will provide a replacement part or product at its sole discretion. Purchaser must assume responsibility for the cost of shipping the product to Simpson for service or inspection. Should any product not meet your expectations for fit, workmanship and quality, please call 1-800-654-7223.

### PRODUCT SERVICES & RETURNS

If for any reason you would like to return a product you purchased, or have a product you need serviced or inspected, ship it to Simpson via insured Parcel Post or UPS within 30 days. Please return new products in original condition, in the same boxes with a copy of the invoice to:

Simpson Performance Products  
328 FM 306, New Braunfels, TX 78130

### CUSTOM SUIT RETURNS

If you need to return a Custom Crew Suit or Crew Uniform for alterations, please send to the following address:

Simpson Performance Products  
1407 West 240th Street, Harbor City, CA 90710

## NOMEX® TECHNOLOGY RACE PROTECTION

DuPont™  
Nomex®

### PERFORMANCE & CONFIDENCE

Racing professionals can't have one without the other. That's why they wear racing suits made of DuPont™ Nomex® fiber. In fact, 95% of racers around the world trust the protection of Nomex® to keep them safe. It manages extreme heat, yet still delivers incredible comfort, style and durability – giving them the performance only Nomex® thermal technology can provide. Racing suits and apparel made of Nomex® fiber help play a pivotal role in providing the valuable seconds racing professionals need to escape fires that result from both on-track collisions and pit accidents.

### BUILT IN

Racing gear made of Nomex® is inherently flame resistant; the FR (flame resistant) protection is built into the fiber and cannot be washed out or worn away – ever. It won't melt or combust when exposed to flame and actually becomes thicker when exposed to intense heat forming a protective barrier between the heat source and the skin.

### TRUST

For more than 30 years, DuPont™ Nomex® has been the industry leader around the world in FR protection against the ever-present danger of fires at the racetrack.

95% of racers (NASCAR®, IRL, NHRA, WoO and IHRA) around the world, including their pit crews, rescue teams and track officials, trust and depend on the FR protection of racing suits made with DuPont™ Nomex®.

## SUIT TESTING

**THERMO-MAN®** is the most advanced life-sized thermal burn injury evaluation system in the world today. He can be exposed to various fire hazards through controlled burns to test burn protection properties of garment constructions, fabric weights, material types and garment design styles. Results predict the amount, degree and location of burn injuries that would be sustained by the wearer in a flash fire.

DuPont scientists use this information to help apparel manufacturers develop optimum designs in lightweight, flame-resistant suits that equip drivers, pit crews, rescue teams and track officials with garments that are comfortable and provide the best thermal protection possible.

### LEARN MORE AT DUPONT.COM/NOMEX

## CUSTOM SLT SUPERIOR LIGHTWEIGHT TECHNOLOGY: MTO 29 & 30

The Simpson *Superior Lightweight Technology* or Simpson **SLT** combines over 60 years of racing innovation with NASA Aerospace advancements to deliver our most lightweight and breathable suit ever. The SLT comes standard with our new 3D Honeycomb *UltraSoft Liner* and new *Comfort Fit* cuffs. This outstanding performance of weight, breathability, and comfort has been achieved while exceeding the stringent SFI standard of 3.4/2A. Our newest and most advanced layup can be used in any of your favorite fits, including our most popular DNA. Feeling is believing, order your new favorite suit today.

### FEATURES

- SFI.5 approved Nomex® racing suit
- STD 3 layer suit
- Made in the USA
- New 3D Honeycomb UltraSoft Knit layers give your our most softest layers while adding outstanding breathability
- New Comfort Fit cuffs replace traditional cuffs, minimizing material at the wrist and eliminating bunching in the glove gauntlet area
- X-Tech stretch elbows: pre-bent 4-way stretch allow for effortless movement of the arms, helping with fatigue and stopping the sleeve from migrating up the arm
- 4-way stretch body panels reduce tension across the back, torso, waist, hips and thighs
- Stretch panels offer improved ventilation in key area of the body
- Stylish outside pockets lay flat to eliminate bunching and require less material
- Embroidered trim adds style without adding unwanted weight
- Exceeds the SFI 3.2/4 FR Standard

## CUSTOM MADE-TO-ORDER RACING SUITS

Our Made-To-Order custom racing suits are made to order per your exact specifications at our factory in the USA. They are SFI approved and feature genuine DuPont™ Nomex® fabric. Our suits provide protection and comfort from over 14 measurements that are uniquely yours for a true custom fit. Our custom racing suits are offered in single layer, 2-layer and 3-layer suits as well as drag racing suits. Try our lumbar stretch panels for added comfort and ease of movement. Our large selection of color choices allows for compatibility with sponsor requirements.

### EACH MTO SUIT INCLUDES

- Custom fit with 14 different measurements
- Vertical quilt
- Choice of collar (banded, soft knit, wraparound)
- Zippered breast pocket on select styles
- Epaulets with Simpson logos included
- Name embroidered on front belt
- Inset front pockets
- Colored rib cuffs (Red, White, Blue or Black)
- SFI tags included where mandated

### Available Features

When you see the Custom logo next to a racing suit, the product is available in custom colors and features. You are not limited by any of these designs in any particular suit style. Design your own suit with the available features below. However, if you like a particular design that you see, call 888-872-SUIT (7848), and our customer service staff will assist you. Or design online at [simpsonraceproducts.com](http://simpsonraceproducts.com).

15% UPCHARGE FOR XXL

Celebrating our 60 years in the racing firesuit business, we proudly introduce the Six 0 premium racing suit, our newest lightweight two-layer SFI-5 suit that offers flexibility and functionality all in one! An attractive contemporary trim design sets this suit apart from the ordinary.

The Satin outer layer has a slight sheen combined with a soft knit inner layer. The Six 0 offers excellent breathability without sacrificing fire protection. Well-placed stretch panels move with the racer both in and out of the car, offering superior memory for a great fit.

**FEATURES**

- SFI.5 Rated
- Satin knit fabric with stylish non-contrasting V-quilting
- Adjustable ultra-soft knit collar and half-belt for a streamlined fit
- X-Tech body stretch panels in the side, back, thighs and knees that offer improved ventilation
- Straight leg cuffs
- 360° full arm gusset allowing full floating sleeves and unrestricted movement
- Four colorway options

**KZX RACING SUIT**

The Simpson KZX Racing Suit is the Newest addition to the world famous Simpson Racing Suit lineup. Super Lightweight three layer suit at an amazing 290 grams/meter<sup>2</sup> to provide racers with an excellent price / weight ratio! Soft inner fabric, full floating arms, breathable side inserts, lower back elasticized stretch panel and an integrated belt for maximum driver comfort. Diagonal stitching, modern styling combined with the Simpson brand and quality.

**FEATURES**

- Super lightweight 290 grams/meter<sup>2</sup>
- 3 layer construction with soft inner liner fabric
- DuPont® Nomex® fabric
- Full floating arms
- Breathable side inserts
- Elasticized lower back stretch panel

**VIXEN GALAXY FEMALE RACING SUIT**

The Vixen Galaxy Racing Suit is a design for the stars. This suit offers SFI 3.2/5 protection in a comfortable and stylish suit designed to accentuate curves and move with the racer. We began with the finest fabric interior and shiny twill outer layer. This suit provides maximum protection from burn situations while at the same time delivering style and attention to detail. The design curves smoothly along the body shape with strategic darts, providing less bulk and a sleek silhouette. The front pockets lay flat and special attention has been given to the bust, waist and hip area, offering a proportion that is both desirable and wearable to our female racers.

**FEATURES**

- SFI 3.2A/5 certified
- 2-layer female racing suit
- Satin Twill outer with soft knit ribbed interior
- Call for additional color options
- Made in the USA

HUNTER TAYLOR – TOYOTA SUPRA DRIVER

**LIGHTWEIGHT AND NON-RATED FULLY SUBLIMATED CUSTOM SUIT**

**IDEAL FOR KARTING OR PHOTOGRAPHY**

Simpson's Non-FR Suits offer the professional look you want both on and off the track. By sublimating directly onto the fabric, we can offer a lightweight suit with endless color and design options. Sublimation reduces your cost by eliminating intricate embroidery. It is a vivid color process that will look as good at the end of the season as it did when you removed it from the box. Unlimited sponsor logos and lettering. Suit features: custom fit and tailored measurements, vertical quilt, choice of collar (banded, soft knit, wraparound), zippered breast patch pocket (not available for styles C/D/F/I/K/L), epaulets, name embroidery (standard type face on belt: Script), inset front pockets, and colored rib cuffs (Red, White, Blue, Black). Customer to supply vector artwork.

### CUSTOM GLOVE PROGRAM

You can order our Team Style SFI.5 certified glove with your own team logos and colors. See our stylish and functional Team Glove here. Our Team Glove features Nomex™ construction with silicone palm and touchpoints and outside seam construction.

**COLORS**  
We offer multiple color choices. Contact us for details.

#### HOW IT WORKS

##### 1. CHOOSE YOUR COLOR

Choose from the Nomex® constructed Black/White Team Glove. Featuring superior grip with silicone palm and touchpoints. This SFI certified glove is a popular choice for race teams.

GLOVE IS SHOWN IN OPTIONAL CUSTOM COLOR, YELLOW.

##### 2. CHOOSE YOUR LOGO POSITION

Place your logo/art in the 3" by 7" print area. Also choose Position 1 or 2 for the Simpson logo.

Large area for your artwork. Excellent position for camera exposure.

##### 3. CHOOSE YOUR QUANTITY

Cost is based on your total quantity of pairs ordered with a unique print. Pricing is also based on the Simpson logo being on the glove. Removal of the Simpson logo will cost \$225 per pair with no quantity price breaks.

PAIR(S):	1 - 6	PRICE PER: \$195.00
PAIRS:	7 - 12	PRICE PER: \$185.00
PAIRS:	13 +	PRICE PER: \$175.00

##### 4. CALL SIMPSON

CALL 1.888.872.7848 to place your order. You will be required to supply your custom, hi-resolution artwork.

**DNA SHOE**

The DNA Shoe is our newest slim, lightweight, form-fitting performance shoe with heat-releasing perforated panels designed to meet the needs of today's fastest drivers.

**FEATURES**

- SFI 3.3/5 certified
- DuPont™ Nomex® lining
- Plush tongue and ankle padding
- Exclusive pedal-sensitive rubber sole

**COLOR**

### MEASURE FOR A CUSTOM FIT BUILD TYPE

- MALE     FEMALE     YOUTH  
 Please measure accurately with cloth measuring tape.  
 Do not adjust measurements or make allowances.  
 Use special instructions for any sizing comments.

KEY	DESCRIPTION (USE CLOTH MEASURING TAPE)	MEASUREMENTS (INCHES)
A	Neck to wrist. Measure from center of neck (bone) to wrist.	
B	Center back length. Measure neck (bone) to waist (C).	
C	Natural waist circumference. Measure across navel & level across back.	
D	Chest circumference. Measure widest circumference.	
E	Inseam. Measure bottom of rise to ankle (bone).	
F	Collar bone to where crotch seams meet.	
G	Shoulder width. End of shoulder to end of shoulder.	
I	Measure circumference of waist at beltline where pants are worn.	
J	Hips. Measure largest circumference around hips.	
K	Thigh. Measure 2" below crotch.	
M	Rise. Measure front to back waist. For 1 piece suit, same measurement points as C. For 2 piece suit, same measurement points as I (where pants are worn).	C I
N	Neck size	
O	Height	
P	Weight	
Q	Bra Size (for women's suit sizing)
