ELITE SERIES™ PACKAGES

Build Your Own Modern Day Hurst Car

Back in 1958, when innovator George Hurst founded the company that bears his legendary name, he and his team were pioneering and designing a wide variety of performance products for the blossoming hot rod community, such as shifters, motor mounts, disc brakes, wheels, Line/Loc, the Jaws of Life, and much more. Today, while Hurst continues to develop industry leading shifters, we've re-focused our goals to carry out George's original vision. Our mission: to design and produce the highest quality performance products available for modern muscle cars and their demanding enthusiasts. The Hurst Elite Series Program, available for Camaros, Challengers, Chargers and Mustangs, is the result of this mission.

How the Program Works

In order for your car to qualify for the program, it must be fitted with the following Hurst Elite Series items: exhaust, wheels, springs, floor mats, graphics and a Hurst shifter. Once you've purchased all six items, contact Hurst directly with the proof of purchase information and we'll add you and your car to our exclusive Hurst Elite Series build database. We'll also send you two limited edition metal Hurst Elite Series badges (red or gold) for your car and an officially numbered and signed build certificate, allowing you to show off your pride of building your very own Hurst Elite Series car!

FLOOR MATS

Embroidered & Vehicle Specific

The Hurst Elite Series Floor Mat Kit includes a 4-piece set of durable black carpet mats that feature an embroidered Hurst logo on the front pair. These high quality mats are cut for a perfect fit, are equipped with OEM-style attachment points and feature a non-slide backing. Rear mats not shown. Available in either red or gold.

EXHAUST

Stainless Steel Systems for Modern Muscle

Hurst Elite Series exhaust systems are constructed using the highest quality materials and finest craftsmanship available today, bar none! These systems feature fully mandrel-bent stainless steel tubing that has been custom designed and exclusively manufactured by industry-leading Flowmaster Inc. to ensure a precise fit every time. The Hurst engineers started with an X-pipe crossover which provides maximum scavenging, sound, and performance, and paired it with a set of polished stainless steel Hurst mufflers. These mufflers utilize a high-thermal sound absorption barrier with a large 3" straight-through performance core that provides a deep, classic tone reminiscent of Hurst's iconic heritage.

The mirror-polished stainless steel tips, featuring laser-etched Hurst logos finish off the system and put the world on notice that you're serious about performance and style. You can take comfort and pride in knowing that every Hurst Elite Series exhaust system is hand-fabricated in the USA and backed by a Lifetime Limited Warranty.

FEATURES & BENEFITS

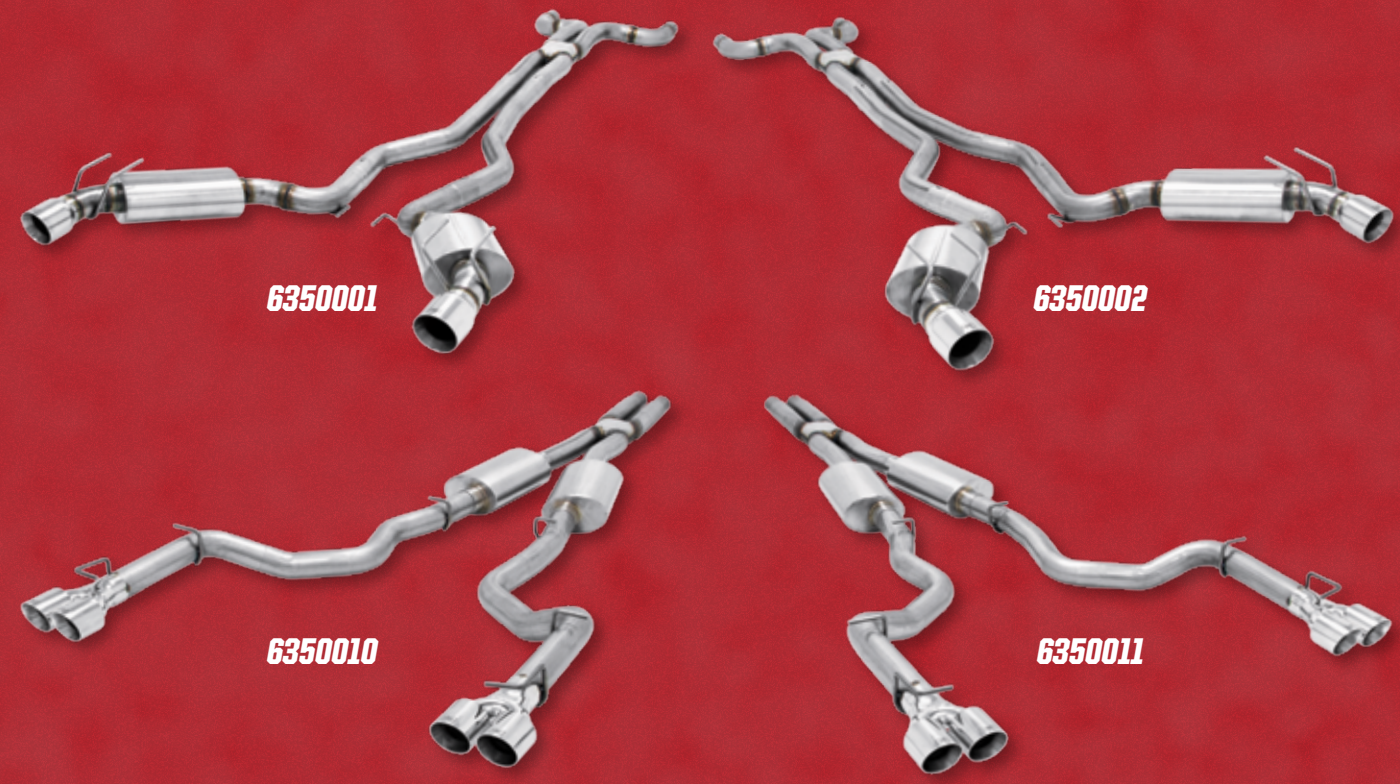

- » 100% Stainless Steel Construction
- » Mandrel Bent Tubing for Optimal Exhaust Flow
- » Mirror-Polished, Laser-Etched Hurst Logo Tips
- » 3" Straight-Through Mufflers for a Deep Muscle Car Tone
- » Cat-back Systems Feature an X-Pipe for Maximum Performance
- » Made in the USA & Backed by a Lifetime Limited Warranty

SPRINGS

High Performance Lowering Springs

The Hurst HP Spring Kit is an excellent choice for firming up the handling of your muscle car and giving it that “Just Right” stance. These springs will lower your vehicle approximately one inch, closing up the fender gap and lowering the center of gravity for improved handling, braking and overall driving feel. Through careful design and rate tailoring, the Hurst HP Spring Kit accomplishes all of the above while still being street-friendly.

SUSPENSION

High Performance Suspension Kits

The Hurst HP Suspension Kit will lower your vehicle approximately one inch, and also increase roll stiffness. These two small changes close up the fender gap, lower the center of gravity for improved handling and braking, and keep body roll to a minimum. From the very first drive you will notice a more neutral balance to the vehicle, more precise turn-in capability, and increased cornering grip.

GRAPHICS PACKS

Show Your Hurst Pride

Let everyone know that you're part of an elite group of automotive enthusiasts by equipping your car with a set of these Hurst graphics! Printed, laminated and trimmed by licensed specialists, these decals are made from the highest quality automotive grade vinyl for extended durability against fade and easy application. Available in either red or gold, each Graphics Pack includes ten separate decals: two large Hurst logos (4.0 in x 7.0 in), two large Performance decals (0.8 in x 5.7 in), two small Hurst logos (2.0 in x 3.6 in), two small Performance decals (0.4 in x 3.8 in) and two Hurst block letter logos (1.0 in x 5.7 in). Includes applicator tool.

RED GRAPHICS PACK (1320000)

GOLD GRAPHICS PACK (1321000)

LINE/LOC®

Complete Roll Control System

Designed with simplicity and ease-of-install in mind, Hurst's complete Line/Loc kits use the absolute best-quality, pre-bent, double-walled stainless steel brake lines. In many cases, these hard-lines are superior to OEM quality. Hurst engineers realized when developing these kits that less really is more. Fewer connection points means fewer places where the system can leak and shorter lines mean less time bleeding the system. These kits are direct bolt-in meaning no measuring, no cutting, and no pre-bending; just simple, clean, factory-looking installs right out of the box.

This is used primarily in drag racing to provide positive locking action to the front wheels of race cars, reducing the chance of "Rolling the Lights" and producing more effective burnouts for heating up the tires. Rigorous testing has proved a 1/100,000 of a second release time and vibration tests have seen up to 30 Gs applied without mechanical failure. Adaptable to most domestic and import hydraulic brake systems. CAUTION: Hurst Line/Loc Should not be used as an emergency brake, or any application requiring the solenoid to be activated for a long period of time.

FEATURES & BENEFITS

- » Advanced Stainless Steel Valve Assembly for Ultimate Corrosion Resistance
- » Fully-Enclosed Epoxy-Molded Electrical Coil for Reliability
- » Attractive, Finned-Aluminum Housing Helps Dissipate Heat
- » Wider, Lightweight Base Provides Better Mounting Stability
- » 150-Micron Screen Filtered Ports to Prevent Contamination
- » Extra Threaded Port for Separate Bleeder or Brake Line Pressure Gauge

BILLET/PLUS®

The Highest Quality Manual Shifters Available

Carved out of solid pieces of strong, high-quality steel and aluminum, Hurst Billet/Plus shifters are designed by engineers with the best equipment and technology available. Billet/Plus shifters incorporate a high ratio pivot mechanism for reduced shifter throw and are sturdily constructed for a more positive and precise feel when shifting. Self centering alignment improves 2nd to 3rd up-shift gear changes to reduce the chance of "missed shifts", while patented adjustable bias spring loads on many models allow stick tension to be tailored to drivers preference. Dedicated applications assure a custom fit and eliminate any vehicle modifications for ease of installation. This is all backed by the history, heritage, and knowledge that Hurst has acquired over half of a century of shifter design. Billet/Plus shifters are backed by Hurst's Lifetime Limited Warranty.

BILLET/PLUS®

Chevrolet Camaro

3916031 • 2016-2017 CAMARO SS

REDUCED SHIFT THROW BY 40%

The heritage of Hurst is now available for the new breed of Chevy's Camaro SS with this new Billet/Plus 6-speed performance shifter. Designed to put the feel of performance back into shifting, this quality crafted precision shifter is a must for the serious Camaro performance enthusiast. This shifter features Hurst's classic and iconic white shift knob for that old-school muscle car look while maintaining modern performance.

3916131 • 2016-2017 CAMARO SS

BLACK PISTOL-GRIP FOR MODERN LOOK

Hurst introduces a new version of their popular Billet/Plus shifter for the 6th generation Chevy Camaro SS with the 6-speed manual transmission. This shifter has all of the same performance benefits of the classic version, but now adds a black pistol-grip style handle. This adds a modern look to a classic design, or the customer can choose to retain the OEM stick with this shifter.

3916034 • 2016-2017 CAMARO LT

REDUCED SHIFT THROW BY 40%

Hurst introduces a new version of their popular Billet/Plus shifter for the 2016-2017 Camaro LT with the TR3160 6-speed manual transmission. Features a 40% reduction in shifter throw and adds a black pistol-grip style handle. This adds a modern look to a classic design and is backed by Hurst's Lifetime Limited Warranty.

BILLET/PLUS®

Chevrolet Camaro

3916030 • 2010-2015 CAMARO SS

REDUCED SHIFT THROW BY OVER 44%

From concept through production of the 5th generation Camaro, GM engineers in both Australia and Detroit were in almost daily contact with Hurst engineers for guidance and design support. Stout Tremec TR-6060 and little brother, Aisin Warner AY6, transmissions were sent thousands of miles across the Pacific for testing and evaluation in conjunction with prototype shifters. Secretive track and laboratory testing, including GM's brutal GMN2893 endurance tests, were run to ensure that this Hurst Shifter was the best. That's why you had the option to get Hurst Shifter in a Camaro installed at the factory. If you didn't – don't worry. Hurst engineers used all of that knowledge and made the aftermarket version even better.

3916029 • 2010-2015 CAMARO V6

REDUCED SHIFT THROW BY 38% • V6 6-SPEED SHIFT PATTERN KNOB

FEATURES & BENEFITS

- » CNC-Machined, 6061-T6 Billet Aluminum Pivot Housing
- » Heat-Treated, Billet Steel Gear Selector Shaft and Bushing Housing for Ultimate Strength
- » High-Strength, Chrome-Plated Steel Upper Stick - Not a Casting
- » Teflon Lined Spherical Bearing Main Pivot Ensures Smooth Shifting and Reduced Wear
- » Direct-Link, Full-Race, Isolation-Eliminating Design for a No-Compromise Positive Shift
- » Optional Isolation System Included Reduces Stick Vibration and Noise Transfer
- » Improved, Glass-Filled, Teflon Lower Bushing with Greater Stability and Strength
- » Includes White, Hurst 6-Speed Knob

BILLET/PLUS®

Chevrolet Camaro / Pontiac Firebird

3915061 • 1993-2002 CAMARO & FIREBIRD

REDUCED SHIFT THROW BY OVER 30%

When the designers and engineers at GM need help with improved performance shifting in their newest concepts they turn to Hurst. From the GTO and Camaro models in the 1960s through today's modern Camaros, GM works directly with Hurst engineers to help improve shifting in their vehicles. That's something only a company with almost 6 decades of shifter design experience can provide. The shifters in the 4th generation Camaro & Firebird were no different. Hurst was tasked with creating a performance shifter that could be an option and installed in the factory. Of course the OEMs have to design for every possible driver – this shifter is that factory shifter with no compromises and with the added classic Hurst style. Includes a black Hurst 6-speed knob.

3915060 • 1993-2002 CAMARO & FIREBIRD

RETAINS FACTORY KNOB & INTERIOR STYLING

FEATURES & BENEFITS

- » Self-Centering Alignment for Improved 2nd to 3rd Upshift Gear Changes
- » Stainless Steel Rotating Pivot Ensures Smooth Shifting and Reduced Wear
- » Two Piece, Bolt-On Upper Stick Allows the Install of any Hurst Upper Stick
- » Adjustable Positive Gear Stops to Help Prevent Internal Transmission Damage
- » Exclusive Oil Control Seal Eliminates Transmission Fluid Loss and Contamination
- » CNC-Machined, 6061-T6 Billet Aluminum Base and Stop Collar
- » Polyamide Pivot Cup Reduces Stick Vibration and Noise Transfer

BILLET/PLUS®

Chevrolet Corvette

3915086 • 2005-2013 C6 CORVETTE

REDUCED SHIFT THROW BY OVER 25%

The Corvette Billet/Plus Shifters incorporate a high ratio pivot mechanism for reduced shifter throw and are sturdily constructed for a more positive precise feel when shifting. Self centering alignment improves 2nd to 3rd up-shift gear changes to reduce the chance of missed shifts. Patented adjustable bias spring loads allow stick tension to be tailored to drivers preference. Dedicated Corvette application assures a custom fit and eliminates any vehicle modifications for ease of installation. Note: may not fit stock knob on some models.

FEATURES & BENEFITS

- » Adjustable, Positive Gear Stops to Help Prevent Internal Transmission Damage
- » Polyamide Pivot Cup Retains Centering Spring Assembly for Increased Centering Force
- » Patented (US Patent no. 4,581,951) Adjustable-Bias Spring-Load for Ease of Operation
- » Self-Centering Alignment for Improved 2nd to 3rd Upshift Gear Changes
- » Stainless Steel Rotating Pivot Ensures Smooth Shifting and Reduced Wear
- » Threaded Handle Designed to Fit Original Knob for a Stock Factory Look
- » CNC-Machined, 6061-T6 Billet Aluminum Base and Top Plate
- » Reduced Shift Throw by Over 25%

3915085 • 1997-2004 C5 CORVETTE

REDUCED SHIFT THROW BY OVER 25%

BILLET/PLUS®

Pontiac G8 / GTO

3916030 • 2009 G8 GXP

REDUCED SHIFT THROW BY OVER 44%

- » CNC-Machined, 6061-T6 Billet Aluminum Pivot Housing
- » Heat-Treated Billet Steel Gear Selector Shaft and Bushing Housing for Ultimate Strength
- » High-Strength, Chrome-Plated Steel Upper Stick - Not a Casting
- » Teflon Lined Spherical Bearing Main Pivot Ensures Smooth Shifting and Reduced Wear
- » Direct-Link, Full-Race, Isolation-Eliminating Design for a No-Compromise Positive Shift
- » Optional Isolation System Reduces Stick Vibration and Noise Transfer
- » Reduced Shift Throw by Over 44%
- » Improved, Glass-Filled, Teflon Lower Bushing with Greater Stability and Strength
- » Includes White Hurst 6-Speed Knob

3915065 • 2004-2006 GTO

REDUCED SHIFT THROW BY OVER 30%

The heritage of Hurst is available for the latest breed of Pontiac GTO with this Billet/Plus 6-speed performance shifter. Designed to put the feel of performance back into shifting, this quality crafted precision shifter is a must for the serious GTO performance enthusiast.

FEATURES & BENEFITS

- » Spherical Pivot Bearing
- » Chrome Stick & Classic Black Knob
- » Unique Link-Bar Pivot System Retains Remote Actuation
- » Additional Upper Stick Included that Accepts Factory Knob
- » CNC-Machined Billet 6061-T6 Mil-Spec Anodized Aluminum Pivot Base
- » Reduced Shift Throw by Over 30%

BILLET/PLUS®

Dodge Challenger

3916020 • 2009-2017 CHALLENGER

CLASSIC CHROME STICK W/ WHITE SHIFT KNOB

Prior to Dodge releasing the manual version of the Challenger, the executives and engineers in the SRT division turned to Hurst for a suitable performance shifter option. They knew that Hurst designed the original pistol grip shifter that was in the Challengers of the 1970s and who better to offer guidance on these new vehicles than Hurst? Well before the first modern-day Challengers officially hit the streets, a flat black prototype manual Challenger, along with mountains of CAD and testing data, was sent to Hurst for evaluation and testing. Equipped with a one-off prototype front bumper and a stealth-like skin, this car was fitted with prototype after prototype and then tested on the streets, in the canyons, and around the race tracks of Southern California. Months of field and durability testing resulted in the shifter offered today: a masterpiece of over 20 design iterations and improvements.

3916120 • 2009-2017 CHALLENGER

BLACK PISTOL-GRIP HANDLE FOR MODERN LOOK

FEATURES & BENEFITS

- » CNC-Machined, 6061-T6 Billet Aluminum Carrier
- » Billet Stainless Steel Adapter Block Allows Stock Handle/Stick or any Hurst Upper Stick
- » Teflon Lined Spherical Bearing Main Pivot Ensures Smooth Shifting and Reduced Wear
- » Heat-Treated Billet Chrome-Moly Gear Selector for Ultimate Strength
- » E-Coated Stainless Steel Adapter Block and Rear Bushing Housing
- » Full Isolation Design and Urethane Mounting Bushings
- » Reduced Shift Throw by Over 30%

BILLET/PLUS®

Ford Mustang

3915201 • 2005-2010 MUSTANG

REDUCED SHIFT THROW BY OVER 30%

With the success of other Hurst Billet/Plus Shifters in other modern muscle car applications, the Hurst engineers went back to the drawing board to update, advance, and apply what they had learned. The pony car that started it all in the sixties and once again re-started the retro-muscle-car movement in 2004 & 2005. The very retro and very cool Mustang GT needed to have the very best Hurst had to offer: the Billet/Plus Shifter. Like nothing else, the Hurst Billet/Plus Shifter harkens back to the Mustangs that started it all. With adjustable shift stops and a high-strength steel stick, this shifter will get you through the gears and down the track in short order with all the style, class, and heritage only Hurst can supply.

FEATURES & BENEFITS

- » CNC-Machined Mil-Spec Anodized 6061-T6 Aluminum Carrier and Pivot Housing
- » Smooth, Precise Teflon® Lined Steel Spherical Bearing
- » Solid, Positive, and Quick Shift Throws that are Reduced by Over 30%
- » High Durometer Polyurethane Bushings Front and Rear for a Solid and Sturdy Shifting Platform
- » Classic Interchangeable Hurst Chrome Stick and White Knob

3915035 • 2001-2004 MUSTANG

REDUCED SHIFT THROW BY OVER 35%

This Hurst Billet/Plus Shifter incorporates a high ratio pivot mechanism for reduced shifter throw and is sturdily constructed for a more positive precise feel when shifting. Self centering alignment improves 2nd to 3rd up-shift gear changes to reduce the chance of “missed shifts”. Patented, adjustable bias spring loads allow stick tension to be tailored to the driver’s preference. Direct bolt-in replacement ensures a custom fit and eliminates any vehicle modifications for ease of installation and accepts factory knobs.

FEATURES & BENEFITS

- » CNC-Machined, 6061-T6 Billet Aluminum Base and Stop Collar
- » Heat-Treated, Billet Steel Gear Selector for Ultimate Strength
- » Adjustable Positive Gear Stops to Help Prevent Internal Transmission Damage
- » Stainless Steel Rotating Pivot Ensures Smooth Shifting and Reduced Wear

BILLET/PLUS®

Mustang / T-Bird / Cougar / Ranger

3915033 • 1983-2001 MUSTANG

REDUCED SHIFT THROW BY OVER 30%

Get all the benefits of Hurst’s modern Billet/Plus Shifter for your SN-95 Mustang and get the classic Hurst look. The flat, chrome Hurst stick and white Hurst 5-speed knob command the T-45 or T-5 through the gears with a crisp, clean “snap” that only a Hurst shifter can provide. Solid shift feel, positive gear engagement, and quick smooth shifting... That’s what a Hurst shifter is all about!

3915031 • 1983-2001 MUSTANG, 1983-1991 THUNDERBIRD/COUGAR

REDUCED SHIFT THROW BY OVER 30%

This shifter provides top race teams and racers with a no-compromise direct link to the transmission. Smooth, slick shifting with complete and positive gear engagement makes driving not only more enjoyable but will improve lap/track times. For all of those hot rod and custom builders out there who are using a T-45 or T-5 out of a donor Mustang – this shifter is the perfect choice. This shifter will work beautifully with any of the Hurst bolt-on upper sticks listed on pages 49-53 – all thanks to the standard Hurst “stub-stick” bolt-on design.

3915020 • 1988-2011 RANGER

REDUCED SHIFT THROW BY OVER 25%

Let’s face it: the Ford Ranger is a whole lot of truck for the money – but the shifter could use some help. The Hurst engineers didn’t cut any corners on this one. It has all the same materials, construction, and features that go into a high-dollar supercar shifter, along with the classic Hurst look of the flat chrome stick, floor mounted boot, and black Hurst 5-speed knob.

FEATURES & BENEFITS

- » CNC-Machined, 6061-T6 Billet Aluminum Base and Stop Collar (3915033 & 3915031) or Top Plate (3915020)
- » Heat-Treated, Billet Steel Gear Selector for Ultimate Strength
- » High-Strength, Chrome-Plated Steel Upper Stick - Not a Casting
- » Stainless Steel Rotating Pivot Ensures Smooth Shifting and Reduced Wear
- » Polyamide Pivot Cup Retains Centering Spring Assembly for Increased Centering Force
- » Self-Centering Alignment for Improved 2nd to 3rd Upshift Gear Changes
- » Exclusive Oil Control Seal Eliminates Transmission Fluid Loss and Protects from Contamination

COMPETITION/PLUS®

Ford Mustang

3916037 • 2015-2017 MUSTANG

REDUCED SHIFT THROW BY 38%

The latest Mustang not only looks great, but now handles even better. It is just as appropriate that the Hurst Competition/Plus Short Shifter for the 2015-2017 Mustang GT functions even better as well.

This Hurst Competition/Plus shifter utilizes a multi-link-type mechanism that allows 38% throw reduction while maintaining factory geometry, alignment, and side-to-side resolution. Positioned in-line with the classic Hurst chrome plated flat blade stick is a chrome plated trigger rod. This trigger rod not only functions as part of the reverse lockout feature, but truly adds style points to the interior.

FEATURES & BENEFITS

- » 38% Throw Reduction
- » New Multi-Link Shifter Design
- » Trigger Operated Reverse Lockout
- » Classic Hurst Styling

CLASSIC WHITE SHIFT KNOB

FLAT-BLADE BOLT-ON STICK
Chrome-Plated Steel

PULL-UP CHROME-PLATED TRIGGER ROD

Prevents the Chance of
Accidentally Going into Reverse

LOWER STICK
4140 Alloy with Black E-Coat

IGUS BEARINGS
Prevents Wear Between
Moving Parts, Lubrication Free

COMPETITION/PLUS®

Iconic Manual Shifters

The industry standard for over 50 years. Most popularly known as the go-to shifter for classic 4-speed models, the Competition/Plus lineup has expanded to cover modern Mustangs as well. Just like the classic versions, these modern Competition/Plus shifters are vehicle specific, requiring no modification for installation. Through careful engineering and high quality components, these shifters can reduce a Mustang's shift throw by over 30%, allowing for faster and more precise gear changes. These modern shifters still feature all the cool, classic styling that Hurst is known for, with their chrome flat-blade sticks and white ball shift knobs. Competition/Plus shifters are backed by Hurst's Lifetime Limited Warranty.

COMPETITION/PLUS®

Ford Mustang

NEW!

3916039 • 2011-2014 MUSTANG

REDUCED SHIFT THROW BY 18%

Hurst's new Competition/Plus shifter for the 2011-2014 Mustang GT, Boss 302 and Base V6 reduces throw reduction by 18% over the stock shifter. Features include a new billet aluminum base housing, a spherical pivot bearing with Delrin support ring to reduce vibration and noise transmitted through the shifter from the transmission, and also a trick looking mini T-handle that actuates the reverse lock-out to ensure you don't accidentally shift into reverse when you want first gear. Simple to install and includes a chrome flat blade Hurst stick and classic white 6-speed knob to give your Pony's interior that racing look and feel it deserves.

FEATURES & BENEFITS

- » CNC-Machined, 6061-T6 Billet Aluminum Shifter Housing
- » High-Strength, Chrome-Plated Steel Upper Stick - Not a Casting
- » Solid Plate Steel Base Construction
- » E-Coated, Billet Steel Gear Selector for Ultimate Strength

3910201 • 2005-2010 MUSTANG

REDUCED SHIFT THROW BY OVER 30%

The Hurst Competition/Plus shifter for your 2005-2010 Mustang reduces shift throw by 30%. Features include a spherical pivot bearing, urethane bushings front and rear, chrome stick and white knob.

FEATURES & BENEFITS

- » High Ratio Pivot Mechanism
- » Chrome Plated Steel Bolt On Stick
- » No Modifications Necessary
- » Easy Installation

THE INDUSTRY STANDARD FOR OVER 50 YEARS

Competition/Plus – The benchmark of transmission control since 1965. Such a solid design from its inception, the Competition/Plus shifter you can buy today is built from the same drawings, tooling design, and material specifications as it was over 50 years ago. With a wide array of custom applications, these shifters will bolt into OEM consoles with no modifications required.

Designed for short, precise throws between gears, the Competition/Plus provides unparalleled shift quality and feel. Every Competition/Plus shifter can be paired with Hurst's heat-treated linkage rods and arms (Linkage Kit) for track-worthy durability. Adjustable shift stops help prevent overshifts and possible transmission damage.

Features such as the chrome-plated stick and classic white Hurst shift knob assure the fit and finish are up to the standards of any car in which this shifter might be installed. Competition/Plus shifters are backed by Hurst's Lifetime Limited Warranty.

STREET SUPER™ SHIFTER

4-Speed Manual Shifters

ABOUT THE STREET SUPER SHIFTER

Based on the racing version of the legendary Super Shifter 3, using the straightforward, logical engineering for which Hurst is famous for. The result is the ultimate in performance, feel, dependability, and value. The Street Super Shifter comes complete with all necessary hardware and an easy-to-follow installation guide. PLEASE NOTE: These shifters are not vehicle specific, therefore stock consoles cannot be used, and minor floor pan modifications are generally required.

MORE POSITIVE SHIFTS >> High-Mounting Design Allows Linkage to Run Level & Straight, Making the Assembly Stronger

FOR A SHORT THROW >> 7-1/2" Tall Chrome-Plated Stick & (3/8-16 Thread) 4-3/4" Knob Travel Between Gears

RACE-LEVEL SPECIFICATIONS >> On Materials & Heat-Treatment Ensure Highest-Quality Assembly

PREVENT OVERSHIFTS >> With Adjustable Gear Stops

MASTERSHIFT™

3-Speed Manual Shifters

ABOUT MASTERSHIFT SHIFTERS

Hurst Mastershift – Timeless innovation and quality. Production of the original Hurst 3-speed shifter started in Glenside, Pennsylvania in late July of 1960. The Mastershift is built to the same strict quality standards of the Hurst 4-speed line. These shifters are still popular as both replacement floor shifters and column shift conversions.

INDY SHIFTER®

Ford Mustang

NEW!

3916036 • 15-17 MUSTANG

REDUCED SHIFT THROW BY 18%

Hurst introduces their new manual Indy shifter for 2015-2017 Ford Mustang models with MT-82 6-Speed transmission. This includes models with the 5.0L, 2.3L and 3.7L engines. As an Indy model, this shifter provides a noticeable amount of throw reduction and a firmer, crisper feel, all while retaining the factory reverse lockout collar and function. This shifter includes a replacement stick, reverse lockout slider, urethane rear mount and a classic black Hurst round ball knob. This Indy shifter is backed by a Lifetime Limited Warranty.

FEATURES & BENEFITS

- » CNC-Machined Billet Steel Parts
- » 18% Shift Throw Reduction
- » Classic Hurst Black Shift Knob
- » Accommodates Factory Reverse Lockout

INDY SHIFTER®

3 & 4-Speed Manual Shifters

ABOUT HURST INDY UNIVERSAL SHIFTERS

Indy 3 and 4-speed shifters deliver quality components and accurate shifting at an incredible value. Do you have an older 3-speed pickup or car that could use some help when it comes to selecting gears? Or perhaps a 4-speed Muncie or Borg Warner T-10 and the shifting is feeling a little tired? These kits are for you. All kits come complete with required hardware, linkage, and easy-to-follow instructions. An Indy shifter kit will have you smoothly shifting and back to enjoying the ride in no time. The Indy 3-speed kits, used for both replacement shifters and column conversions, are engineered to fit specific transmissions, and can be adapted to many floor pans. Indy 4-speed kits: fitment for most popular vintage 4-speed transmissions: Muncie M-20, M-21, M-22, Borg Warner T-10, and Super T-10.

*Will fit all 6 cyl., HD and standard 3-speed transmissions except selector type gear boxes (single shaft). Certain applications require a great deal of modification to make shifter fit.

BLACKJACK™

Manual Shifters for Tremec Transmissions

NEW!

ABOUT HURST BLACKJACK SHIFTERS

The Hurst Blackjack Shifter is specifically designed to locate the shifter handle in the proper location for vehicle specific applications when using an aftermarket Tremec TKO or Magnum transmission. Hurst Blackjack shifter housings are CNC machined from billet 6061 aluminum, feature a tough black MIL-Spec anodized finish with the Hurst logo CNC machined in the top plate, ensuring you're buying the highest quality shifter available today for your Tremec transmission.

Other features include zinc-plated hardened chromoly steel stick adapter, dual stick centering springs, hardened chromoly pivot pins and a durable delrin pivot ball for positive, quiet operation. Includes the classic Hurst chrome flat bar stick and white shift ball for the specified application. Covered by Hurst's Lifetime Limited Warranty.

FEATURES & BENEFITS

- » CNC Machined Billet 6061 Aluminum Housing
- » Durable Delrin Pivot Ball for Smooth Operation
- » Hardened Chromoly Pivot Stick
- » Classic Hurst Chrome Stick and White Shift Ball
- » Vehicle Specific for Proper Shifter Locations

NITRO STICKS™

For Hurst Manual Shifters

ILLUMINATING RED LED PRECISION SWITCH » For Convenient Control of any Auxiliary Unit Including a Hurst Line/Loc, Transmission-Brake, or Nitrous

MILITARY SPEC. » Clear or Black Anodized Finish with Engraved Hurst Logo

FIRM, NATURAL, COMFORTABLE » Engineered to Provide a Firm, Natural, Comfortable Grip When Shifting

AEROSPACE QUALITY » CNC-Machined 6061-T6 Aluminum Construction

Don't be afraid to push the **RED BUTTON!**

ABOUT HURST NITRO STICKS

After development of the Hurst Pistol-Grip Quarter Stick for automatic transmissions, the engineers at Hurst believed that the same style handle and durable switch should be available for those with manual transmissions. This time the switch was specified to be made completely out of aluminum for added strength, with an illuminating ring surrounding the button for added visibility, and a flip-cap design on the stick to avoid accidental activation of the auxiliary unit. The handle is CNC-machined from billet 6061-T6 aluminum for exceptional strength and is contoured just like the Quarter Stick Pistol-Grip for ergonomics. The precision switch has been chosen for its strength and durability, and is simply integrated at the top of the handle for convenient control of any auxiliary unit. Fits on any Hurst Competition/Plus or Billet/Plus Shifter with the standard 2-bolt connection.

SHIFTER STICKS

Flat & Round Bar

ABOUT HURST SHIFTER STICKS

Available in both round and flat bar styles, Hurst bolt-on shifter sticks are ideal for use in custom applications where a particular height or offset is required. These shifter sticks are constructed from high strength, chrome plated steel and are stamped with the Hurst name and feature 3/8 - 16 threads. Can be used on any Hurst two bolt style shifter assembly. Please refer to drawing/diagram for ideal application.

COMP STICK KIT™ PART #5380036

1987-1993 FORD MUSTANG WITH T-5 MANUAL TRANSMISSION

The Comp Stick Kit fits the stock OEM shifter mechanism and the aftermarket Hurst Competition/Plus shifter mechanism. Kit consists of a white shift knob with gear shift pattern, chrome-plated flat shifter stick, rubber vibration isolator, shifter boot, and console top plate with the famous Hurst shifter logo.

PISTOL-GRIP™

Shifter Sticks

AN ICON IS REBORN

From an original Challenger or Barracuda equipped with a Hurst Competition/Plus to a modern, brand-new Challenger equipped with a Hurst Billet/Plus, these handles just bolt on! In 1970, Chrysler introduced the Dodge Challenger and Plymouth Barracuda models with a must-have option: The Hurst Pistol-Grip Shifter. It became an iconic feature of the Challenger and Barracuda, from the past all the way through today's new Challengers. Much of the same design and tooling that was used on the 1970 Challenger T/A & Plymouth 'Cuda AAR is used today to manufacture these reproduction Hurst Pistol-Grip handles and sticks. The same materials and construction methods are used but with one main difference – these reproduction handles incorporate Hurst's standard 2-bolt connection. These handles will fit on any Hurst aftermarket shifter that has a Hurst standard 2-bolt connection lower stick. Top of the handle features the Mopar 4-Speed pattern.

BLACK PISTOL-GRIP™ PART #1531001

2015-2017 DODGE CHALLENGER W/ MANUAL TRANSMISSION

Swap out the stock shift knob on your modern Challenger for this black anodized pistol-grip. Made from CNC-machined billet aluminum, this shifter handle is a bolt-on replacement specifically designed for the 2015-2017 Dodge Challenger.

UNIVERSAL PISTOL-GRIP™

With Optional 12V Auxiliary Switch

ABOUT HURST UNIVERSAL PISTOL-GRIP HANDLES

The Hurst Pistol-Grip shifter handle is designed to provide a firm, comfortable, and natural grip when shifting. With such a good grip on the control of your transmission, the chances of missing a shift are greatly reduced. Military-specified, anodized surface treatment ensures a great-looking, durable, and long-lasting finish.

CLASSIC HURST®

Shifter Knobs

ABOUT CLASSIC HURST SHIFTER KNOBS

The classic look and feel of the Hurst shift knob is still at the top of its game. Available in a wide variety of patterns and thread sizes, these knobs are sure to work with your application. They are incredibly tough and feel great in the palm of your hand because they are built from the same material generally used by billiard ball manufacturers. Whether you are rowing through the gears at the track or short shifting through town, a Hurst shift knob will enhance your driving experience, one gear at a time.

PRO-MATIC 2™

Automatic Ratchet Shifter

ABOUT THE HURST PRO-MATIC 2

The Hurst Pro-Matic 2 ratchet-action shifter, with its chrome-plated stick and black knob, is quality engineered for years of precise, trouble-free operation. Once the shifter is installed, the brilliant top cover and textured console, which can be trimmed to fit any floor contour, integrates the shifter into the interior. While easy on the eyes, this shifter is not all about looks. On the street, you will enjoy the ride as you freely tap the stick from gear to gear. If you decide to transfer your beauty of a machine to the track, give it all you've got because this shifter is built to handle the most powerful shifts, and the special positive reverse "Loc/Out" meets NHRA and IHRA technical requirements. This shifter comes complete with all the hardware required to make installation a breeze including a 5' long heavy-duty shifter cable and instructions. It also includes a neutral safety and back-up light switch assembly.

ADDITIONAL FEATURES

- » Progressively-Illuminated Gear Position Indicator
- » Cable-Operated to Provide Your Choice of Mounting Locations
- » Full-Forward and Reverse Ratchet Action
- » Compatible with Standard or Reverse Pattern Valve Bodies

V-MATIC 3™

Automatic Ratchet Shifter

ABOUT THE HURST V-MATIC 3

The Hurst V-Matic 3 is the pinnacle of performance shifters. At the end of 2012, the V-Matic 2 was replaced by the V-Matic 3. The engineers at Hurst shifters decided to go with a new mechanical design that would eliminate hang-ups between shifts and achieve a quicker, smoother, and more positive shift than its predecessor. If you are looking for a high-performance ratchet shifter that is robust and stout, the Hurst V-Matic is the perfect choice. This shifter comes complete with all hardware required to make installation a trouble-free task.

- » Special Positive Reverse "Loc/Out" for NHRA and IHRA Technical Requirements

QUARTER STICK®

Automatic Gated Shifters

ABOUT HURST QUARTER STICKS

The Hurst Quarter Stick is considered the purest form of a race shifter. This shifter was designed for the people that wanted a no-compromise, lightweight, and compact shifter for 2 and 3-speed automatic transmissions in forward and reverse valve body shift patterns. The one-hand-operated, spring loaded, reverse "Loc/Out" mechanism meets NHRA and IHRA technical requirements and enables drivers to clear the reverse lockout while remaining strapped into their shoulder harness belts. These features, along with the fact that it is extremely compact and lightweight for tight-fit cockpit installation, have made the Quarter Stick immensely popular with race car drivers.

If you have a rear-engine dragster, the Quarter Stick 2 would be your best shifter choice. It has the same mechanisms as the Quarter Stick but with a rear cable exit. This allows for easier installation, positive shifts, and a lower probability of cable binding.

ADDITIONAL FEATURES

- » Forged-Aluminum Stick for Added Strength (7/16"-20 top thread)
- » Controlled Gate Stop Provides Fast Gear Changes while Eliminating Overshifts
- » Includes Hardware, 5' Shifter Cable, Factory-Installed Neutral Safety Switch, and Installation Guide
- » Does Not Include Optional Covers or Back-Up Light Switch

QUARTER STICK®

Pistol-Grip Automatic Gated Shifters

ABOUT HURST PISTOL-GRIP QUARTER STICKS

The Hurst Pistol-Grip Quarter Stick Shifter is designed for a firm, comfortable, natural grip, providing a positive feel when shifting. Wouldn't it be great if there was a shifter that had the same great features of the Quarter Stick but with an ergonomic handle? Then integrate a precision snap-action momentary (normally-open) switch ideal for operating a Hurst Line/Loc, nitrous system, or transmission brake. That's how the Pistol-Grip Quarter Stick was born! The handle is CNC-machined from billet aluminum for exceptional strength and is contoured like a pistol-grip for ergonomics. The Pistol-Grip Quarter Stick 2 features a rear-exit cable design for rear-engine applications.

Aluminum Covers Sold Separately

QUARTER STICK®

Accessories

ALUMINUM COVER KIT

Brushed - Part #1300041

Black Anodized - Part #1300051

Adds a professional, finished look to your Quarter Stick installation. Attaches to the shifter with quick-release pins (included) and may be used in conjunction with the aluminum mounting plate kit. Does not fit Quarter Stick 2 or Pistol-Grip 2.

PLASTIC COVER KIT

Quarter Stick & Pistol Grip - Part #1300055

Quarter Stick 2 & Pistol Grip 2 - Part #1300056

Adds a distinctive, finished look to your Quarter Stick installation. Mounting plate and button head screws are included with the plastic cover kit.

ALUMINUM MOUNTING PLATE KIT

Mounting Plate - Part #1950225

Replacement Pin - Part #1890082

Clear, anodized aluminum mounting plate offers mounting flexibility and allows for quick shifter removal via quick-release pins (included).

BACK-UP LIGHT SWITCH KIT

Part #2488601

Kit includes back-up light switch and hardware. Easy installation for all Quarter Stick and Pistol-Grip shifters having front cable exit.

QUARTER STICK®

Accessories

SOLENOID SHIFTING KIT

Part #2260020

The Hurst Electric Solenoid Shifting Kit was designed to automatically complete the 1st to 2nd gear change, increasing shifting reliability and improving E.T. consistency.

» Engineered for forward-pattern Hurst Quarter Sticks.

» Shifting is controlled when used with an rpm-activated switch or manually-activated push button (normally open) switch.

The solenoid features a spring-activated plunger and is designed to quickly and firmly push the shifter stick into gear, not hit or slam it, which can cause damage to the stick itself.

Kit includes a heavy-duty 12-volt solenoid rated at maximum 3-amp draw to hold the plunger in position, aluminum mounting bracket, hardware, fuse, and electrical connectors.

COMPETITION SHIFTER KNOB W/ BUILT-IN 12V SWITCH

Part #1630050

Now with snap-action for instant activation, this black, molded ABS knob is ideal for use with Hurst Line/Loc®, or other nitrous oxide systems, or other 12-volt accessories. 7/16" x 20 thread size, application for Quarter Stick.

NEUTRAL/PARK START SAFETY SWITCH

Part #2488600

Kit includes switch and mounting hardware. Easy installation for all existing Quarter Sticks. (Newer Quarter Sticks and Pistol-Grip shifters feature the switch installed from the factory.) Fits front and rear-exit cable shifters.

ACCESSORIES

HURST PIT PACKS

Available in either steel or nylon. Steel bushings are designed to take the punishment of racing applications and provide a more solid feel and longer service life. Nylon bushings are designed for street applications and eliminate most of the noise and stick vibrations. These pit packs can be used on the Master Shift 3-Speed, Competition/Plus 4-Speed, or the V-Gate 2. Kit includes either 6 or 7 steel or nylon bushings and spring clips. (Quantity and material are kit dependent.)

APPLICATION	BUSHING	PART #
3, 4, and 5-speed manuals	Nylon Bushings	3320001
3, 4, and 5-speed manuals	Steel Bushings	3327302
V-Gate 2 only	Steel Bushings	3321657
Billet/Plus 3916030 (10-15 Camaro)	Stainless Steel/ T-500 Polymer Bushings	3326030
Billet/Plus 3915201 (05-10 Mustang)	Replacement Polyurethane Bushings	3325201
Competition/Plus 3910201 (05-10 Mustang)	Replacement Polyurethane Bushings	3320201

HURST SHIFTER CABLES

Replacement shifter cables are available for all Hurst automatic shifters. Additionally, several lengths of cables are available for the Quarter Stick and Pistol Grip shifters. These premium quality cables feature a solid 303 stainless steel inner wire core encased within a nylon liner wrapped with helical lay wires and swaged ends for superior strength. The core is lubricated with Teflon prior to assembly and then sealed in a heavy plastic outer casing for durability and smooth operation. Make sure the cable is not kinked, bent in too tight of a radius, touching the exhaust manifold, or dragging. If this occurs, make adjustments to eliminate the problem.

STANDARD REPLACEMENT CABLES

CABLE LENGTH	PART #	VISUAL	NOTES
3 ft. Adjustable Single Eyelet	5000023		Auto Stick 3, Pistol-Grip, Q-Stick/Q-Stick 2, Lightning Rods Pick-up Truck Auto stick, Dual Gate 2, Van Auto
5 ft. Adjustable Single Eyelet	5000025*		Auto Stick 3, Pistol-Grip, Q-Stick/Q-Stick 2, Lightning Rods Pick-up Truck Auto stick, Dual Gate 2, Van Auto
8 ft. Adjustable Single Eyelet	5000028		Auto Stick 3, Pistol-Grip, Q-Stick/Q-Stick 2, Lightning Rods Pick-up Truck Auto stick, Dual Gate 2, Van Auto
5 ft. Adjustable Double Eyelet	5000029		Q-Stick (Late model Camaro, Monte Carlo)
5 ft. Adjustable Single Eyelet	5008555**		Pro-Matic 2, All V-Matic Shifters

* Standard cable for most Quarter Stick shifters. ** Standard cable for the Pro-Matic 2 and V-Matic 2.

BACK-UP LIGHT SWITCH • PART #2480003

This switch is designed to be used in conjunction with OEM back-up lights, the Competition/Plus 4-Speed, Super/Shifter 3, and MasterShift 3-Speed shifters.

HURST WARRANTY INFORMATION

Lifetime Limited Warranty applies to all Hurst shifters, exhaust kits, wheels and suspension kits (springs, sway bars, etc.).

One Year Limited Warranty applies to all Hurst shifter related accessories (knobs, handles, etc.), and other non-shifter related accessories (floor mats, decal kits, etc.).

90 Day Limited Warranty applies to Hurst Roll Control kits and all electrical components (switches, lights, solenoids).

Hurst Performance ("Hurst") extends the following limited warranty to the original purchaser of its shifters, exhaust kits, wheels, suspension kits, components and accessories (hereafter "products").

Hurst warrants the products mentioned above against defects in materials and workmanship for the period set forth below, when they are owned by the original purchaser and remain installed on the vehicle on which they were originally installed. This warranty is void if the product was not installed properly on the vehicle, was installed on a vehicle for which it was not designed, or was removed from the vehicle on which it was originally installed and reinstalled on another vehicle. This warranty shall not apply to normal wear (bushings, springs, etc.), cosmetic issues such as coatings and material discoloration, or any product that was installed on a racing vehicle (excluding shifters), installed contrary to Hurst instructions, or altered, misused, repaired, damaged from an accident, collision, undercarriage road impact or debris, or willful or negligent act.

The warranty set forth herein for all Hurst shifters, exhaust kits, wheels and suspension kits (springs, sway bars, etc.) extends for a period of the life of the original vehicle the product was installed on. The warranty set forth herein for all Hurst shifter related accessories (knobs, handles, etc.), and other non-shifter related accessories (floor mats, decal kits, etc.), extends for a period of one year from the date of original purchase and the original vehicle it was installed on. The warranty set forth herein for Hurst Roll Control kits and all electrical components (switches, lights, solenoids) extends for a period of 90 days from the date of original purchase and the original vehicle it was installed on.

To make any claim under the terms of this limited warranty, the original purchaser **MUST** either return the product to the original retailer or directly to Hurst. If the original purchaser elects to return the product to Hurst directly, he or she must first contact Hurst and obtain a Returned Material Authorization (RMA) number. Once the RMA number is received, the original purchaser may return the product to the address provided by Hurst, along with the **RMA number and Proof of Purchase** of the covered product. The Proof of Purchase must clearly show the place of purchase, purchase price, product purchased, and date of purchase. If upon inspection by Hurst the product is found to be defective in material or workmanship, Hurst shall at its option, either exchange the product for new product with the same part number or refund the original purchase price.

This warranty is not contingent upon the purchaser's completion of the Warranty Registration Form found on the Hurst website. If however the purchaser completes and submits that form at the time of purchase, Hurst will keep that form on file which may serve as an aid in determining warranty coverage in the event of the loss of the original purchase receipt.

Hurst's liability is expressly limited to the replacement of the product or refund of the purchase price as described herein. Hurst shall have no liability for the cost of installation or removal of the defective product, for the cost of labor or any additional parts required to complete the installation of the replacement product, towing or transportation costs, or return shipping costs. In no event shall Hurst be liable for any direct, indirect, special, incidental or consequential losses and/or damages, including but not limited to interruption of business or loss of business or loss of profit or damage to related components resulting from the use of or inability to use the product, or any breach of warranty or any defect in the product, even if Hurst shall have been advised of the possibility of such potential losses or damages. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights. You may also have other rights which may vary from state to state.

The warranties set forth herein are exclusive and unless otherwise required by applicable law no other warranties are made by Hurst or are authorized to be made with respect to the product.
